**PAVING WORK ON 1-293 IN MANCHESTER AND 1-93 IN CONCORD**  
**NIGHT WORK NEAR EXIT 6 AND EXIT 14**

The New Hampshire Department of Transportation announces night paving work on sections of Interstate 293 in Manchester and Interstate 93 in Concord is scheduled to begin May 28.

This night paving work will begin May 28 on I-93 in Concord in the area of Exit 14. Work hours will be between the hours of 8:00 pm and 6:00 am. Motorists can expect lane closures and uniformed officers will be used to guide vehicles through the work zones. This work is expected to take about four nights to complete.

The night paving at Exit 6 of I-293 and the Amoskeag Circle in Manchester is expected to begin on June 2 between the hours of 9:00 pm and 6:00 am. The Exit 6 ramps will be closed at times between 11:00 pm and 5:00 am. Uniformed officers, message boards and detour signs will be used to direct traffic through and around the work zone. This work is also expected to take four nights to complete.

This paving work is part of a larger resurfacing project that is scheduled to be completed by September 2002. Brox Industries, Inc. of Dracut, MA is the contractor for the \$1.25 million project.
